

## NEW NEWS at Fenix – August 2008

Fenix Data Systems is proud to announce the addition of Alex Tronin to our technology/development team. Alex has joined us in the capacity of Lead Technologist and will lead our developing and programming team. Alex has extensive experience in the logistics industry and has developed state of the art applications for the customs brokerage industry on both the customs brokers side as well as the I.T. services provider side.

Alex held appointments as VP Technology of a major .dot com company as well as VP Technology for Logistics Software Corp.

His portfolio of accomplishments includes products such as:-

- Fully integrated Canadian Customs Brokerage System
- Shipment Tracking
- Warehouse Management System
- Web-based applications

His knowledge and hands-on experience with C#, MS-SQL, MS .Net as well as overall customs brokerage process knowledge unsurpassed in our industry. We are pleased to have Alex join our team and with his experience it will enhance our team and our service offerings.
